

1000 Designs for the Garden is a lavishly illustrated sourcebook focusing on the best in contemporary garden design.

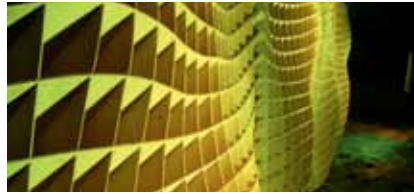

Today's use of exterior spaces as outdoor rooms has led to a dramatic growth in design products for the garden. Designers like Marcel Wanders and Ross Lovegrove and companies such as Viteo, Serralunga and Extremis have created furniture and lighting ranges specifically designed for use outside. These new works successfully challenge traditional garden design, using new materials and developing the idea of the garden not only as a living space, but also as a site for installation.

Each of the book's ten chapters is headed up by an interview with a leading expert in garden design, architecture, product design or fine art. Featuring web addresses and full specifications for every product, the book will appeal to both traditional gardeners and design lovers alike.

With over 1,000 full-colour illustrations.

Ian Rudge is the co-founder of 100%Design, the UK's leading design event, launched in 1995 with sister shows in Moscow and Tokyo. He is now joint-director of Tent London, a series of cutting-edge design shows during the annual London Design Festival.

Geraldine Rudge, Ian's sister, was editor of *Crafts* magazine, the international applied and decorative arts title, for 18 years. She has written for a range of national newspapers and magazines and is author of *Garden Crafts*. Together Ian and Geraldine are the authors of *1000 Interior Details For the Home and Where to Find Them*.
