# Great Ormond Street Hospital

오몬드 스트리트 병원 \_ 레이어의 높이 변화에 따른 흥미

Design Andy Sturgeon / Andy Sturgeon Landscape and Garden Design Client NHS Trust \_ Great Ormond Street Hospital for Children Contractor The English Garden Company Location London UK Use Staff Roof Terrace Area 198m<sup>2</sup>(9mX29m)

디자인 앤디 스테전 / 앤디 스테전 랜드스케이프 앤 가든 디자인 클라이언트 엔에이치에스 트러스트 위치 영국 런던 용도 루프 테라스 면적 198m<sup>2</sup>(9mX29m)

Create a stunning sculptural element, in clearly defined areas for dramatic impact and to draw people into the garden. Provide good circulation within the garden and easy access to all areas.

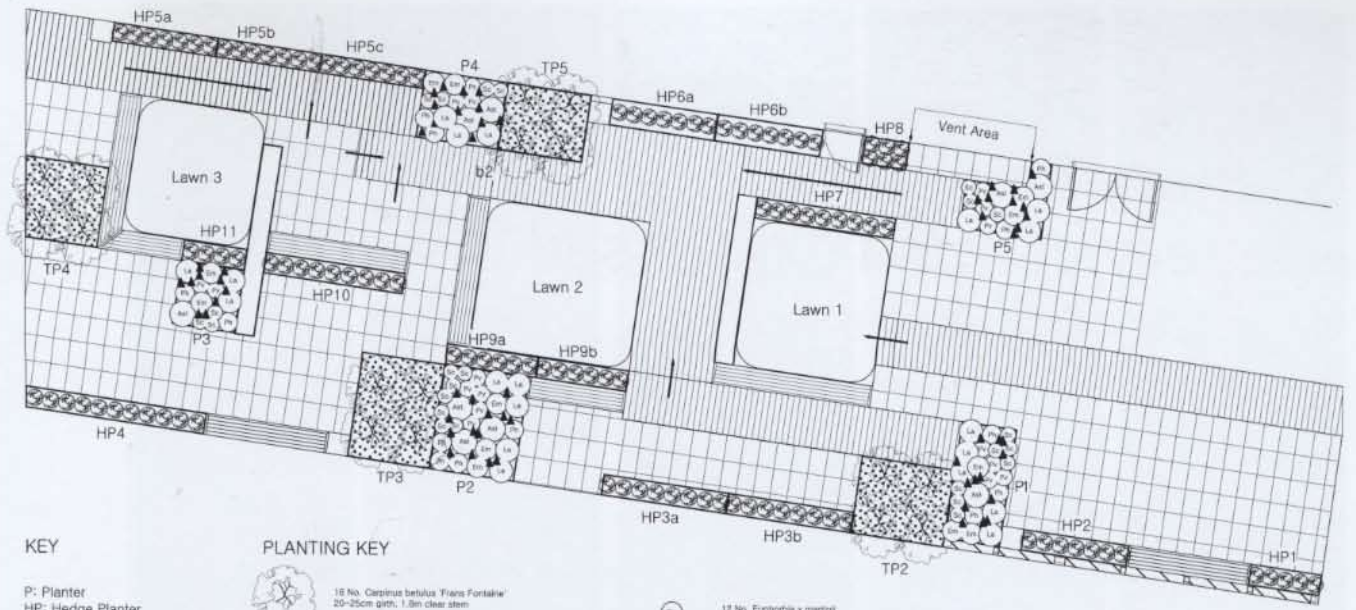

Create different planes within the garden to help define separate areas. By creating striking horizontal planes which build up in layers - trees, sculptural frames, hedges, planters, lawns, paths, benches are all set at different heights. These changes in level throughout the garden provide greater interest and opportunities for seating.

Create numerous changing views within the garden so each space has a different outlook yet is visually linked to the whole garden. Each separate area is unique in size, shape and design and yet all are part of a unified approach.

Retain the openness of the garden with the sense of sky and views. Sculptural frames provide a strong visual element, define areas, frame and create views, provide shade and seating. Hedges and planting create flexible, semi private seating areas within the garden. Linear hedges link spaces and are directional creating a natural flow through the garden, giving privacy and strong horizontal planes within the design. Lawns create a flexible space that allow the garden to accommodate a large number of people when there is greatest demand during summer months. Lighting is paramount as the garden will be used around the clock and is also important during colder weather when the garden will be viewed from inside. Floating benches provide flexible seating for numerous people and are lit beneath at night.

KEY

P: Planter  
HP: Hedge Planter  
TP: Tree Planter

PLANTING KEY

- 16 No. *Carpinus betulus* 'Fens Fontaine'  
20-25cm girth, 1.8m clear stem
  - Trees underplanted with 60 No. *Miscanthus* 'Yakushima Dwarf'  
3L pots @ 450mm centres
  - 114 No. *Taxus baccata* hedging 1000mm high (cut back to 800mm high) @ 2.5 plants/linear metre
  - 17 No. *Planticum vivarium* 'Heavy Metal'  
3L pots @ 400mm centres
  - 9 No. *Astella chaianica* 'Silver Spear'  
10L pots @ 800mm centres
  - 12 No. *Euphorbia x martinii*  
3L pots @ 500mm centres
  - 19 No. *Lavandula angustifolia*  
18L pots @ 350mm centres
  - 13 No. *Penstemon alpestris* 'Isamen'  
10L pots @ 450mm centres
  - 24 No. *Salvia nemorosa* 'Caradonna'  
3L pots @ 300mm centres
  - 60 No. *Tulipa* 'Belwina'
- All turf for lawn planters to be Polawn Meddison or similar quality amenity grade turf. Total area approx. 36m<sup>2</sup>

Planting Plan

사람들을 정원 속으로 끌어들이고 극적인 효과를 위해 명백하게 정의된 구역에서 훌륭한 조각 요소를 창작한다. 정원 내에서 순환을 좋게 하고 모든 구역에 쉽게 접근할 수 있도록 한다.

서로 다른 구역을 정의하기 위해 정원 내에 여러 가지 평면을 계획한다. 여러 레이어가 채워질 수 있도록 두드러진 수평면을 돕으로써, 나무, 조각 프레임, 울타리, 수목들, 잔디, 통로 및 벤치는 모두 다른 높이로 설치된다. 정원 전체의 이러한 높이 변화는 좌석 배치에 대한 더 큰 흥미와 기회를 제공한다.

각 공간은 다른 조망을 가지지만 전체 정원과 시각적으로 연결되도록 매우 다양하게 변화하는 광경을 연출한다. 각각의 다른 구역은 크기, 모양 및 디자인이 독특하지만, 모두 통합된 접근법의 일부이다. ■
